Working Bibliography

Even among baby boomers, wealth inequality is an increasing trend. There are multiple solutions to the issue but they are sitting in congress. Since the article is on forbes (a financial magazine) the focus was on the negative economic impact on the overall economy. The piece was composed by Richard Eisenberg, and I know that the article is credible since the author cites his sources from credible publishers. This piece will be used to show the multi generational impact of wealth inequality.

Eisenberg, Richard. "The Distressing Growth Of Wealth Inequality Of Boomers."

Forbes, Forbes Magazine, 16 Oct. 2019, www.forbes.com/sites/nextavenue/
2019/10/16/the-distressing-growth-of-wealth-inequality-of-boomers/.

This article is mostly a piece that shows the upward trend in wealth inequality, and multiple candidates that want to fix it with a wealth tax. The piece is credible and has sources present with no editorializing. The author is Megan Henney. I am going to use this piece to show the trend in wealth inequality.

Henney, Megan. "Wealth Inequality in US Reached Highest Level in over 50 Years,

Census Says." Fox Business, Fox Business, 26 Sept. 2019,

<u>www.foxbusiness.com/economy/wealth-inequality-in-us-reached-highest-level-in-over-50-years-census-says.</u>

This piece shows the growing trend of the wealthiest citizens paying lower taxes than the bottom half of the population. It shows that the tax system is causing inequality since politicians have gutted the progressive tax rate. The author is Aimee Picchi and is a credible piece. This article will be used to show the effects of government intervention on wealth inequality.

Picchi, Aimee. "The U.S. Tax System Is 'a New Engine of Inequality." *CBS News*, CBS Interactive, 16 Oct. 2019, www.cbsnews.com/news/u-s-tax-system-a-new-engine-of-inequality-economist-gabriel-zucman-says/.

This is a small piece showing the growing trend of wealth inequality and the effect of this administrations policies on it. The article is credible, and the author is Laura Rusu. This piece will be used to have more evidence to support the overall trend of wealth inequality.

Rusu, Laura. "Davos: Richest 1% Got 82% of Wealth Last Year." *Accuracy.Org*, 2018, accuracy.org/release/davos-richest-1-got-82-of-wealth-last-year/.

This article mostly talks about the pressure of the elite to compete with each other, and the effects on the psyche. The article is mostly anecdotal with sources, and the author is Christopher Ryan. This article will be used to explain the pressures behind wealth inequality.

Ryan, Christopher. "Why Are Rich People So Mean?" *Wired*, Conde Nast, 1 Oct. 2019, www.wired.com/story/why-are-rich-people-so-mean/.

This article again shows the trend by wealth and debt for each segment of the US population. The article is credible and the article was written by Mathew Yglesias. The piece will be used to show effects of wealth inequality, and the effects of policy on it.

Yglesias, Matthew. "New Federal Reserve Data Shows How the Rich Have Gotten Richer." *Vox*, Vox, 13 June 2019, www.vox.com/policy-and-politics/2019/
6/13/18661837/inequality-wealth-federal-reserve-distributional-financial-accounts.

This article mostly shows the overall trend among younger people to favor socialist policies over traditional politicians. The article is credible but the author is not mentioned. The piece will be used to show the socio-political effects of wealth inequality on today's voter.

"Socialism and the Young Voter." *The New York Times*, The New York Times, 16
Oct. 2019, www.nytimes.com/2019/10/16/opinion/letters/socialism-jails-new-york.html.
